Survey Meter Check Sheet

(These meter operational checks are required prior to first use, each day used)

**Calibration Date**
Is it within the past year?
If not, the meter cannot be used.

**Battery Check**
Are the batteries good?
If not, replace batteries before using the survey meter.

**Check Source Response Check**
Is it reading within ±20% of the sticker “Source Ck” value?
If not, the meter cannot be used.
